GISELLE

An ideal urban basin fountain for parks and roundabouts. Fully integrated in the city, it provides a meeting point and place of social interaction among citizens while also adding an ornamental touch to the urban fabric. This fountain generates a natural atmosphere of freshness and tranquility for citizens that mitigates the “urban heat island” effect. At night, the public can enjoy the colored lights that produce a lovely visual spectacle.

TECHNICAL CHARACTERISTICS

GISELLE

Ornamental effect	Units	Product	Product code	Height effect	Illumination	Light code	Units
Central Jet	1	Spear Nozzle \varnothing 20mm	66645	6m	Circular LED 200	I1261MWNDMXI52	1
Parabolic Jets	12	Spear Nozzle \varnothing 14mm	66643	2m	Adjustable MINI LED	I0406MINDMXI52	24

ADRIANA

A large, circular fountain with numerous jets of water spraying upwards. The fountain is set in a park area with green grass and trees. In the background, a dense city skyline is visible, featuring several tall skyscrapers under a clear blue sky. The word "ADRIANA" is written in large, white, bold letters across the top left of the image.

"A fountain plays a vital role as a source of happiness, a community gathering point and a metaphor for life"

ADRIANA

The ADRIANA fountain is an urban element of great ornamental beauty designed to cool the environment in parks and other city areas. Water evaporation from this basin fountain produces a freshness effect that draws a great many people and tourists, particularly in hot periods. When night falls, this fountain comes alive and showcases its play of aquatic lights in which the lighting of each jet can be independently controlled.

TECHNICAL CHARACTERISTICS

ADRIANA

Ornamental effect	Units	Product	Product code	Height effect	Illumination	Light code	Units

MARTINA

"Fountains have always been synonymous with life since the beginning of time"

MARTINA

This stunning basin fountain called MARTINA is an ideal choice for its urban visual charm and citizen well-being. It combines the spectacular nature of its large number of jets with the mitigation of urban heat around it. This fountain therefore generates a great deal of social activity in its vicinity, injecting new energy into urban leisure zones. In night mode this fountain produces a very visually pleasing light show.

The background of the image is a dark blue gradient filled with numerous out-of-focus circular light spots, known as bokeh. These spots vary in size and brightness, with some appearing as soft, glowing yellow and light blue circles, while others are more muted and blend into the background. The overall effect is a sense of depth and light. The word "FLUIDRA" is centered horizontally and vertically in a clean, white, sans-serif font.
